

Want to give a unique holiday gift that also supports Missouri's economy and is kind to Planet Earth? Give gifts that are grown, raised, made and marketed by your neighbors. Locally made gifts usually have less packaging and involve much less shipping. The Missouri Department of Agriculture lists Missouri products and where to find them at www.agrimissouri.com/buyersguide.html. Also, give gifts friendly to the environment like cloth napkins and tablecloths, lamps designed for compact fluorescent bulbs or stationary made from recycled paper.
